FRIDAY, MAY 1, 1903.

One of our exchanges says that the beginning of house cleaning, always results in some kind of a little trouble.

A disease called "old head" is killing thousands of men in the west. It is a little ailment always proved fatal, which a multitude of deaths would give credit in our midst.

The suspension of two state senators for hindering legislation by calling the papers in the public registration bill, is a just and proper remedy that highway methods are not to be commended in Massachusetts.

John D. Rockefeller, Jr., is an active worker in Sunday School affairs, but his facts do not prevent William H. Rockefeller from publishing his remarks at (Greenwich, Conn., where his family may be played on the Sabbath).

Our congratulations to Charles H. Willoby on his appointment as manager and editor of the Weymouth Gazette plant—Weymouth, Mass.

Thank you, Brother Pratt, may the relations existing between the Bee and the Gazette be of the most friendly nature.

Yesterday was the speaker's farewell appearance for the present season. He retired with the consciousness that in his case "out of sight is not necessarily out of mind," and that his welcome next season will be none the less hearty than this season.

Clawing in the lack of space we are obliged to omit from this week's issue, an interesting article as Manual Training by Mr. Elmer E. Sherman, superintendent of schools. The article will appear in full in our next issue.

Koston still continues on the backward track of civilization; this by the granting yesterday of nearly a thousand liquor licenses. (The prevalence of such a license indicates a low state of public morals, and strikes an irreparable blow at public peace and prosperity.)

Massachusetts and the Harvard Medical School, can claim the honor of discovering the cause of small-pox, an ailment, the lowest form of animal life. Now let somebody discover some means of preventing the disease without the use of the filthy inoculation method and we shall be happy.

To the profession: "If you expect a man to find a complaint about himself, you must put it on the front page in bold face type. If you put in a line one inch in length between two patent medicines on the second page, he'll find it, and come hunting the man who wrote the piece."—Exchange.

May the members of the local branch of the Amalgamated Association of Street Railway Employees, enjoy their present popularity. Their first ball which was held at Quinsy last Friday evening was a successful success, and the "boys in blue" have the best wishes of the Gazette for the success of their next.

The Massachusetts House refuses to extend the Cleveland exemption to veterans of the Spanish war, and by so doing, was the gratitude of those men who offered themselves for service in the recent Spanish war. These men do not want their honor and name, and the extension of special favors on account of that service.

Now that the open cars are running again, ladies take hold of the stanchion in front when you get out, instead of the one at the end of your seat. Then you will face the front and if a car is moving a little when you step to the ground you won't turn a back somersault. This bit of good advice is given by the Boston Globe.

A President who can begin speaking at 10 p.m. and not stop till 11 p.m., meanwhile crossing the state of Iowa and kissing four babies at the same time, may call attention; but that's what "our Teddy" did last Tuesday. And what's more, he, as usual in his speeches, talked plain, people-appealing common sense every time.

Our sincerest congratulations to our valued contemporary and namesake the Weymouth Gazette on its 27th anniversary of usefulness in the field of country journalism and helpfulness in all good movements for the material betterment of the old town in which it is published.—Hyde Park Gazette.

Our thanks, neighbors, we are proud to be the namesake of a paper of the character and type of the Hyde Park Gazette.

The destruction yesterday by a bomb of the Ottoman bank at Salonica, European Turkey, together with an attack on the Turkish post office, will help to open many eyes to the critical state of affairs in that part of the world. And then, there was the destruction on Tuesday by a bomb of a French steamer as she was leaving Salonica.

Five years ago today (May 1, 1898) our George Wilcox called at Manila, and the United States took the place of Spain as to the Philippine Islands. The change was a many-sided one, but at a far from many-sided cost. In part, America has shown that they can be as brutal as the Spanish when given opportunity; read General Miles' report. But not all have been cruel.

There is much honest and legitimate speculation as to why our national treasury department allowed the National City Bank of New York (Rockefeller's institution) to enjoy the limit of \$6,000,000 in bondholders throughout the country and need to their creditors advising their acceptance of the department's refusal offer. Are the Rockefellers to run the whole country—oil, copper, treasury department, and all?

All the coal mines of Germany are now under the control of a single syndicate and our people are beginning to feel the squeeze of a trust. The question of government control or ownership is now being discussed. Capital everywhere is squeezing the people so hard that soon it will be a matter of life or death whether

THE MEMBERS OF THE WEYMOUTH BRASS BAND are to be congratulated upon the progress which has been made by them, both individually and collectively, since their organization, some five months ago.

Their playing at their ball in East Weymouth, Tuesday evening, demonstrated the fact that their many months practice have not been in vain, and that the band is now a credit to the city.

## NEEDLESS AUTOBOMBING

Wreck a Carriage at North  
Weymouth.

Reports of the latter incident, and the  
error of the Pioneer Herald's daily  
reports.

North Weymouth was the scene of a  
serious accident last Sunday afternoon  
when those who happened to be in the  
city at that time were witnesses to a  
blooded exhibition of reckless auto-  
mobile driving, coupled with utter  
ignorance on the part of the chauffeur,  
as a result.

The Astors of Cohasset and a  
couple were driving through the town  
and on Bridge street were struck by  
an automobile which contained a man  
and

which witnesses to the accident was going at a rate of twelve or thirteen miles an hour. At that time, struck Astoria's carriage with tremendous force, throwing its occupants to the ground and completely demolishing the carriage. Mr. Astoria seriously injured and was taken to home. The driver of the automobile did not stop to ascertain the extent of damage done, but sped on toward Quincy.

As soon as the accident occurred, word went to the police of Quincy and, ten to fifteen minutes later, Officer J. H. Dorchester, giving a description of the machine and of the driver. Quincy police saw the machine going along Hancock street at a furious pace were unable to stop it.

### HIGH SCHOOL NOTES

wing to the high wind, the practice on a ball which was to have been held last Friday against the Junior boys called off.

It is probably there, will be an inter-school athletic meet, similar to the one held in the early part of June. Mr. Simpson has tried to arrange a meet with Hingham and Abington high schools, as yet has been unsuccessful, but the Abington school has not the necessary equipment for training the boys. In the high school building which Abington

have, there will be a gymnasium which will give the fellows a chance for playing. A league is to be formed, and next year we hope to have an athletic team. The league will be called the South Shore League.

Mr. Sampson signed a contract last Saturday with Florence Partridge & Co., of Boston, for eleven hives half uniform for the High school baseball team.

Monday, the first act a representative of the school to measure the players' uniforms will probably arrive next Monday, but the rest of the party will not be here until the following day. They will be worn at the game at week Friday. The jerseys of the school are, crimson and old gold, are two exclusive for the school to purchase at present, and the school colors will be represented in the stockings, which will be

men with one broad and two narrow gold stripes. Only ten of the aunts are named by the school, as one of the players is to buy his own suit.

William H. Taylor '02 and Francis Well '01, have been appointed letter carriers. Taylor's route is in East Weymouth, and Lowell is located at Weymouth. Ralph Burrill '01 who took the nomination and received the highest percentage, did not take a position, but remains at his old situation at Strickland's Store, South Weymouth, as bookkeeper, on an advanced salary.

The junior class held a meeting in room 8, Monday afternoon. At this meeting, two members of the decorating committee resigned their positions, and two others were elected in their places. The number of the committee was changed from five to seven, making it necessary to elect two additional members.

The second has been held on the 18th. We understand that school will be up on June 17 this year, although it has always been a holiday.

Weymouth High defeated Whittier High in a five inning game on the Porter field, Tuesday afternoon. The game was played under difficulties, as the wind was blowing a gale all the time, and a part of the time the rain came down in torrents. Whittier was outplayed in a nearly starry inning, and the victory for Weymouth was assured. Nickerson, Clark and Lowry, all of Weymouth, played the best game for Weymouth. Looney struck out five or six times, but Kennedy, who was playing catcher, failed to catch the ball on the last strike several times, so that only a strike-out counted. Looney gave out two bases on balls. Reed and P.

erry played best for Whitman. Beal  
three bases on balls, and struck out  
two men. Nielson made two runs for  
eymouth, and Joy and Kennedy made  
each. Beal made the only run for  
Whitman, which was in the first inning.

**A Little Early Misor**  
Now and then, at bedtime will cure constipation, biliousness and liver troubles.  
Dr. Williams' Little Early Misor are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by F. W. Rows, Cohasset.

### PEOPLE'S COLUMN

My dear Sir:—Today I learned from my friend Mr. Hyde, that the chairman of the committee on this Old Home Week, he thought, had already engaged Congressman Powers to deliver the oration. Now it is unfortunate that a politician should be chosen for this occasion. There are many with myself who never heard of Congressman Powers, and knowing what town he lives in, and again we have many in town who are not Republicans, as is the chairman of this committee, who will not take pleasure in this arrangement. A friend of mine from Braintree, told me of the utter failure of their Old Home Week of last year. Now their failure was on a capital of one thousand dollars, and with a small affair in comparison. But we want no failure, we want no politicians. We want the Republican to be as well as the Democrat and vice versa. It is unfortunate in our town that there are men who are nothing, unless in politics, have this on their minds. To continue we have those in our town who have the ability as Mr. Cressy, Noy, Hyde and Holland, that make it needless to go out of town. They know Weymouth people better than a stranger who has not to study it up in order to tell his story. I know nothing of the clergy of the other parts of the town but infer they are of the calibre of those in the land. I also learn the new Village hall has been engaged for this occasion. This is right. I pray they will get their instruments in tune and the pieces they play be simple, so that harmony may prevail.

### PEOPLE'S COLUMN

Brooklyn, May 16th, 1903.  
Dear Sir:—Enclosed find clippings from the Weymouth Gazette and "Brooklyn Eagle." Wayfarer should read them. Maxwell's speech and perhaps his views. Weymouth people have been very kind in their criticism of the "Landings." It is a beautiful place, but it is full of "croakers" who fill the inspiring stranger with defeat against the place.

### RAILROAD NOTES.

Newly Items About the Mass Who Run the Electric.  
Starts James Thomas was in his usual place at Hingham square on Sunday.  
Midorman James Ford looked after the cars at the Nantasket Beach terminal, Sunday.  
Have you noticed the expression on the face of a popular motorist? How could you (O Ford I like)  
The new transfers which have recently been put into use are somewhat like a homely person—the better one gets acquainted with them the better he likes them. They are hard to learn, but on divisions where they have been in use since January 1, the men like them. In addition to being good for a ride, one of these transfers may be used as a check protector on cash days. There are only 50 points of transfer named on the check.  
The cool weather of the early part of the week made phasing riding look like the proverbial thirty cents, but over these white sidewalks were out and in with the pumpkins.  
Former motorist William Nichols and Charles Smith are again on the road.  
Richard Shoveley of the Center will do the honors of a collector again this season.  
A broken axle on an eight wheeler delayed travel on the Beach line for a hour last Saturday afternoon.  
Cunliffe Litchfield has a very peculiar habit which must be several centuries old. "Mother" is thinking some of having a suit of clothes sewed to it.

John Cuffie of Grey Street has joined the ranks of the railroad men in the capacity of motorman.

### OBSERVATIONS.

The Origin of "Shirley."  
In the course of a few weeks work is to be resumed on the concrete walls of the pier alongside the fitting-out basin on the Fore River shipyard, extending them to 1200 feet. The pier will then be completed by filling the space between the walls with earth, on which the railway tracks will be carried. The tracks for the gantry crane will also be extended.  
A number of trips of a four-horse track have been necessary to carry down from the Quincy Adams station the stone cubes of the six-masted steel schooner "William L. Douglas," now lying at Fore River for the Coastwise Transportation Company, better known as the "Crawley fleet." The chain was made in Pennsylvania and will be in two cables of 2 1/2 fathoms each. Each cable will contain three "shot" or sections of chain, two "shot" being 4 fathoms long, and one, 3 fathoms. A shackle connects each "shot." The links of this chain are large and are of two and one-half inch "shot" with a "nut" across the middle of the link. So heavy is the shackle that it requires the united efforts of seven men to move a single shot and pile it in the hold where the "Doug" is being hoisted.  
A good deal of large work is being done on the Fore River shipyard. One of the most important jobs is the building of the "Vall Blinn" steamer. This will be nearly 20 feet long and 21 inches in diameter. The crankshaft for the lathe-work is also being turned. Another large piece of lathe-work is the shaft for one of the lathe-ships, which is 17 and a half inches in diameter and 37 feet long, lathe-bored. The forgings for the six-inch guns are also being turned, 20-foot long tubes with jackets of 16-inch iron. These latter are made in groups of four and turned and bored before separating. The shafts for the United States cruiser Des Moines are also in hand. The two for the steam cutter are 22 and a half feet long and 18 and a half inches at the largest diameter; those for the 30-foot launch are 26 feet long by seven and a half inches. The shafts for the propeller shafts of the New Jersey have been made ready and those for the Illinois Island are in the shop. The "pads" have been set in the hulls and the installation and final work of fitting will be done in a few days.

### TEACHERS' RECEPTION.

Their Annual Held at High School Hall.  
The school teachers of the town held their annual reception in the High school hall, Tuesday evening. About fifty were present and a very enjoyable evening was spent in listening to the singing and listening to a program of piano solos, by Miss Marion Small of the Athene school, North Weymouth; vocal solos by Miss Donovan W. H. N. '05, and Miss McCarthy, W. H. N. '04, and mandolin solos by Miss Katherine Holmes of East Weymouth. A lunch of tea, cream, crackers and homemade was served and a general good time was enjoyed by all.  
Recent experiments, by practical tests and examination with the aid of the X-rays established it as a fact that Cataract of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kohl's Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia and prevent or cure Cataract of the Stomach. ### COLONIAL THEATRE.

"A Chinese Honey-moon," now in its fourth week at the Colonial theatre, Boston, seems fair to credit all the producers in the way of popularity. On last Wednesday night this company celebrated its 20th performance, and the other company, playing the same piece in Chicago, gave its 10th performance. No modest comedy of late days can boast of so long and successful a record both here in America and abroad, where it was shown in London for six years. It is a delightful story, embodying the homely motifs of a life, and the picture is ever seen on a Boston stage, the Chinese atmosphere being exceedingly delightful and the costumes of the most gorgeous coloring that artistic taste could desire. One of the most beautiful pictures ever seen on the American stage is that of the entrance of the bride and her eight bridesmaids in an ensemble song, called "Frocks and Pettis." The bride, together with her bridesmaids, who are said to be the most beautiful women ever seen in a metropolitan production, create quite a sensation when they first appear. No place has been so popular with the ladies and children and matinee audiences in general as "The Honey-moon." It is not uncommon to see as many as 1000 ladies gaily laughing and chatting and discussing the points that are won on the stage.  
Little Miss Polly Claude, the smallest star principal in this country, has made a hit in a stately character called "Polly" in the low comedy character of the play and easily outranks all efforts in that way that have ever been made in the large musical production. During the last act Miss Claude dresses up, as it were, and gives the audience an opportunity to see her in a charming Chinese gown, offering quite a contrast to that in her previous part of the play.  
A very humorous situation is the one in which Emperor Hang Chow (Mr. W. H. N. '05), who looks 17-2 feet tall in his gorgeous robes, and Miss Claude, who is about 5 feet tall, are seen to leave the stage arm-in-arm. Mr. Housman, the leading comedian of the company, who plays Mr. Housman, remarking, "There they go one and a half feet high."

## HOME BANKS

That we Loan Free to any one who  
Opens an Account of \$1.00.

## The National Mount Wollaston Bank, QUINCY, MASS.

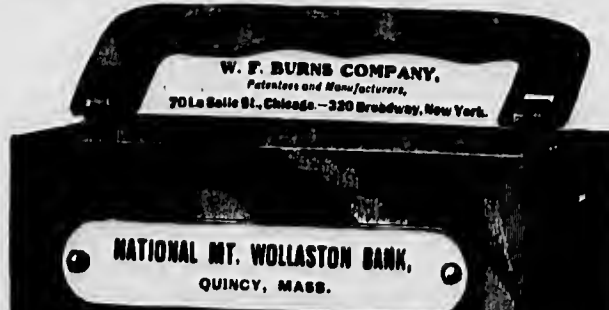

We pay Three per cent. interest on Home Bank Deposits. Invites your business. A general Banking Business conducted in a safe, conservative manner. We give careful attention to small accounts as well as large. For the benefit and assistance of saving depositors, we have adopted the Home Bank System of the W. F. Burns Co., New York and Chicago. These are handsome oxidized steel banks, with Yale lock, and we will loan one without charge to any person opening a savings account with us. The banks help you to save, as they afford a safe, convenient place in which to accumulate small accounts, and as we keep the key, you cannot be tempted to spend what you have saved. In order to give everyone an opportunity to try our new plan for saving, we have decided to loan a bank to anyone who wishes to Open a Bank Account of One Dollar.

You Have the Bank, We Have the Key.

## Did you Ever Consider

How much money you were spending thoughtlessly?  
You are earning money every day?  
Are you saving any money?  
Could you easily save more?

## Save Your Nickles, Pennies and Dimes.

The interest you get makes the dollars. And thus the little savings will grow into mighty dollars.  
Call and get one of these little home savings banks to-morrow free.

## Call and Ask for a Little Bank.

Write or Telephone and  
We Will Deliver a Bank at Your Home.

Begin saving to-day, and in a few short years you will have a capital with which to go in business or buy a home. Do you know that if you will save only 25 cents each working day for five years, you will have accumulated, by the end of interest, \$419.10.

## ...This will be Yours if You Make an Effort...

The \$1.00 with which you open the account draws at Three Per Cent., and will be returned when you close your account. It's what you save, and not what you earn, that makes wealth. Our representative will call on you to explain our savings plan, and will leave a Home Bank with you if you deposit \$1.00 with which to open the account.

This is the Bank.

## 3 Per cent. Interest

On Home Bank Deposits.

## Money Grows

BUT NOT ON TREES.  
SAVING PENNIES IS THE SECRET.

Anyone can save small amounts. Money at interest in the bank grows Sundays, Holidays, every hour, every day.

## Have You Some Ready Money to Accept a Good Business Offer?

"Ready Money" is a Remedy for Many Ills.  
Cornelius Vanderbilt's rule for saving: "No matter what I was earning, I always made it a rule to save something. The money will pile up in time."  
A plan blunder said: "I could easily have saved \$20.00 a week for the past thirty years. Now if he had only saved \$10.00 a week for thirty years he would have in the bank to-day \$25,217.50. Think it over—figure out what he could have saved."  
A lady teacher who had \$750.00 in bank said: "I never would have saved a cent but for the little Home Savings Bank."  
Three girls purchased a \$200.00 piano after using a little bank eighteen months.
